It part of the Director's office &c and that this amount was sanctioned temporarily & has continued for a long time.

2. At the time the rent was sanctioned it was also directed that plans &c shd be submitted for the construction of the building required & the Dept. It appears from the papers (which have been obtained from the Director's office) relating to this subject (that in pursuance of the direction, plans &c were prepared but owing to want of funds only a small addition to the office building was sanctioned and that the part of Dr. Sweet's bungalow previously occupied also continued to be used.

3. At present therefore there is need for continuing to occupy a portion of the said bungalow as hitherto, unless other accommodation is provided to meet the requirements of the Dept.

4. As it may not be possible to find funds for any considerable construction now Govt may continue to pay rent as heretofore. Building may be constructed when funds are available.

5. The Comptroller may therefore be informed accordingly, if approved.

Before I meet happened to come & see me today or to me other business & I took advantage of the opportunity to speak to him in this matter. He is of opinion that the accommodation now provided is the least that can be of any use and that it cannot be cut down. But he is agreeable to its being built in sections as funds can be found. The accommodation in the present building is limited & the staff are working under conditions which are not conducive to any satisfactory work. After discussing it with him, I (this last) am of the matter has received confirmation & nothing else. If permission is accorded to the estimate, with the proviso that the accommodation can be provided in sections as funds are available it will quite meet the situation. I think the details may be permitted to be settled in consultation with the P.W.D.

SIR,

I have the honor to state that the Government have in their Order No. 667-S dated 29th June 1903, directed the continuance of the payment of a House rent of Rs. 60/- per mensem for the use of a portion of Dr. Smeeth's Bungalow for the requirements of the Geological Department till other permanent accommodation could be provided for this Department. This rent is still being drawn by the Director in his Contingent Bills.

In reply to a reference made on the subject the Officiating Director has stated that the building is still being used for Government purposes and a copy of his letter is herein enclosed for information. It is about 15 years since the arrangement was sanctioned and as no other accommodation has been provided during this long period according to the Government Order the matter is reported for such orders as Governme may consider necessary.

CHIEF SECRETARIAT 20 AUG 1919 MYSORE

To

C.S. Balasundaram Iyer, Esq., B.A.,
Chief Secretary to the Government of
H.H. the Maharaja of Mysore, Bangalore.

SIR,

I am returning herewith the plans and estimate, kindly forwarded with your letter No.G.2790/Geol/22n17-10, dated 4th August 1919, for additional accommodation at Lambourne House.

At an interview with the 1st Member of Council, I was giveh to understand that administrative sanction might be accorded to the proposed extension, but that it would be impossible to obtain funds now for the whole of the work.

I am unable to diminish the accommodation applied for or to reduce the estimates and if the funds for the whole are not available, I request that part of the work be carried out now and the remainder completed later. The Laboratory portion of the building is a crying need and the want of it has very materially retarded our progress and reduced our efficiency in the past. I would ask, therefore, that the following rooms be sanctioned and put in hand at once, viz,-

Drawing office,
General Laboratory,
Chemical Laboratory,
Balance, Gas & Lavatory rooms.

The total plinth area of these rooms is, approximately,

3012 square feet, which at the average rate of Rs.5-6-6 comes to about ... Rs. 16,275/-

I am prepared to make a reduction of ... " 800/- by substituting either Kadappa slabs or Clay tiles for Marseilles tiles in the Chemical rooms.

This reduces the estimate to ... Rs. 15,475/- which might be increased to Rs.16,000/- to allow for special items in the Laboratory portion.

I hope that it will be possible to provide this, as the drawing office is also very badly required and its provision will set free a room in Lambourne House for the use of officers and help us to tide over the serious shortage of accommodation. If this is considered too much for immediate sanction, the drawing office might be temporarily omitted and this would reduce the estimate by some Rs.3475/- making the net amount required Rs.12,525/-.

I trust, however, that the drawing office may be included and a sum of Rs.16,000/- sanctioned.

I have the honor to be,

Sir,

Your most obedient servant,

Director,

Department of Mines and Geology.

Sir,

I have the honor to invite your kind attention to your letter No.G.12900/Geol.122-17-14, dated 4th December 1919, and to enquire whether funds can now be kindly spared for the provision of additional accommodation required for this office at Lambourne House. The want of accommodation has been very seriously felt by one and all the members of this Department, as the present rooms in this office building are few and most of them narrow. There are more men accommodated at present in the rooms than is desirable both from business and sanitary points of view.

The recent addition of 4 Probationers to this Department has resulted in the need for accommodation being more acutely felt than before, and as it will be some long time before the additional accommodation asked for can be provided, I beg that orders may kindly be issued for the room now occupied in this building by Mr. A T. Setlur, Inspector of Explosives, being vacated and placed at my disposal as early as possible. This is a big room which could conveniently accommodate the new
